I'm a dietitian that transitioned into front-end software development. I use my problem-solving skills that I refined in healthcare to now build digital products. I enjoy creating tools to make jobs more effective and gratifying.

Authorized to work in the US for any employer

## Work Experience

---

### **Web Developer**

FREELANCE - Columbus, OH

December 2022 to Present

I develop custom websites with React, JavaScript (ES6), CSS3, and HTML5. These websites are responsive and accessible. My current projects include working on a cryptocurrency website and an MVP for a collective intelligence platform.

### **Tech Lead / Business Analyst**

Chemical Safety Software - Remote

August 2022 to Present

I help clients implement Chemical Safety's environmental health and safety (EH&S) software into their business practices. My day consists of problem-solving technical obstacles while ensuring the product meets their business needs. I work along side external and internal developers, project managers, and ancillary staff.

### **Critical Care Dietitian**

OhioHealth - Columbus, OH

January 2015 to August 2022

Functioned as a rotating team member of the OhioHealth Nutrition Support Team which services total parenteral nutrition (TPN) for six hospitals in the Columbus, Ohio region. On non-TPN weeks, MICU, SICU, and other units are covered throughout the OhioHealth system

### **Clinical Dietitian**

OhioHealth - Columbus, OH

December 2013 to January 2015

Completed nutrition assessments, monitored nutrition care plans, and interacted with the interdisciplinary team members in care rounds. Provided medical nutrition therapy (MNT) to promote health and provide nutrition care services in the treatment of diseases on various units including: ICU, step down, medical surgery floor, and a level II NICU. Participated as an active member of the virtual nutrition support team for OhioHealth. Hosts heart healthy classes for the community. Provided dietetic support to home health patients.

## **Registered Dietitian**
